DM Quick Sheet - Final Clue Flow

- **Mayor Tessa:** armory empty, horde coming, south gate vulnerable. Points to armory, Halven, Edra, and village defenses.
- **Armory:** picked lock, owlbear tracks, intellect residue, possible Ilyra Voss clue. Points to owlbear, mantle origin, and traitor tracks.
- **Halven:** looks guilty, admits he slept, and can reveal Edra was out at odd hours if treated with mercy. Points to Edra and the south road.
- **Nim:** saw the intelligent owlbear/mantle, smoke, and scouts. Points to Old Cobb and the forest path.
- **Old Cobb:** gives survivor map and can reveal Tomas died months ago. Points to Edra's motive and the lair approach.
- **Skitters:** knows dusk timing, rough numbers, and the second objective if protected. Points to the egg raid, shaman, and Edra.
- **Edra:** useful watch captain secretly feeding intel because she believes Tomas lives. Reveal can happen before battle or during the gate breach.
- **Grubbleclaw:** confirms south-gate intel came from inside and can reveal Ilyra mantle origin. Points to alliance or conflict.
- **Finale:** raid hits the gate while a strike team moves toward the lair. Track both village defense and egg defense.

Do not reveal early: eggs, nest, Edra as traitor, Halven as red herring, Tomas as dead, or the raiders' egg objective. Let play earn those reveals.
